

Dura-Coat

Hevi-Bar II Coating

Your Solution for Highly Corrosive Environments!

Reduce crane down-time caused by corrosive attacks on your electrification system. Specify Hevi-Bar II treated with our highly effective **Dura-Coat** protection!

Dura-Coat combines a ceramic compound with an epoxy binder to provide superior corrosion resistance and exceptional adhesion. **Dura-Coat** is applied on all metal surfaces except the stainless steel running shoe surface. The conductor bar cover slides over the coating.

Dura-Coat is ideal for extreme service applications such as:

- Galvanizing plants
- Electro-plating lines
- Chemical processing
- Smelters
- Foundries & Cast houses
- Coke & Ore handling cranes
- Oxidizing & Electro-winning facilities

Contact **Conductix** today for more information on **Dura-Coat**!
